PROJEKTOVANJE - PROIZVODNJA - MONTAŽA - ODRŽAVANJE - USLUGE

## The Company's Biography

- "ML System" Ltd. was founded in 1992 with head office in Kragujevac, Serbia and it is 100% private ownership.
- The main field of work of our company is design and construction of thermo-technical installations, ventilation, air-conditioning, gas installations, electrical installations, sprinkler installations, plumbing installations and all kind of steel constructions (production and mounting).
- In recent years we have worked with a number of investors and contractors, including: "**Mercury Engineering**" – Belgrade (**GTC Blok 19a** - Belgrade), "**TPV Šumadija**" - Kragujevac (car parts plant in Kragujevac), "**NIS Energogas**" - Belgrade (now "Srbijagas" – gas installations), "**Montaža**" a.d. - Belgrade (shopping center in Kragujevac), "**Fund for Building and Roads of Municipality Velika Plana**" - Velika Plana (city gas boiler room, district heating pipeline), "**Stekos Inteko**" - Smederevo (business and shopping center in Kragujevac, residential building in Smederevo), "**Evaco International**" – Belgrade (refrigerating units plant "**Gorenje**" in Valjevo), "**Kronospan SRB**" - Lapovo (plant in Lapovo), **International Management Group** (donation project of Norway Kingdom), **KRESTOTES** Italy (Magneti Marelli plant in FIAT), **FIAT** Kragujevac (construction of factory in Kragujevac – various installations), **INSO/Italiana Costruzioni** (Clinical center Nis – sprinkler and inergen installations)...
- We have 50 employers, among them there are 4 certified engineers and 12 certified welders. Furthermore we employ additional laborers, and also consultants depending on the quantity of work we are dealing with, as well as subcontractors.
- Our company owns all needed equipment, vertical platforms, forklifts, tools and transport vehicles for performance in our field of work.

REFERENC LIST  
2007 - 2017

# GTC Business Park Belgrade

- GTC Business Park is situated in Belgrade (Blok 19a) near Sava Centre and highway
- It contains of 2 business buildings with 10 floor high, block of apartments, 2 level garage
- Total area 60.000 m<sup>2</sup>

# CHS – Central Heating Station

- In very tight place is situated central heating room capacity of 1.6 MW
- Owing to our engineers and chief manager we succeed to assemble all the equipment in small room

# Heating and Cooling Substations

## Boilers, Fan Coil

- Mounting of nine heat substations with installed heat exchangers: 2x750 kW, 2x1.175kW,
- Mounting of boilers for preparing of the running water 3x5.000lit
- Mounting of two cooling substations with installed cooling machines 3x500kW and a heating pump 1x500kW
- Piping of warm and cold water in business premises, mounting, connecting and starting fan cool machines (cca 600 pieces)
- Piping of warm and returnable water for heating in residential area to the heat-meters in the hallways

# Sprinkler installations in a two-level garage space with three pump stations

# Roda Centre - Kragujevac

**Thermo technical installations: heating and cooling, heating substation  
1.6 MW, Cooling substation 1.8 MW, ventilation installation**

# TPV Šumadija – Kragujevac

car parts plant

**Delivering of equipment and material and installation  
MECHANICAL and ELECTRICAL, on construction of factory for car-parts  
production “TPV Šumadija” in Kragujevac**

# MAIN CITY BOILER ROOM – Velika Plana

## 3x3 MW

# Factory PIONIR – Paracin

confectionery industry

- Construction of natural gas installation in the factory, supply and installation of measuring - regulation gas stations

# Factory GORENJE – Valjevo

refrigerating units industry “Gorenje” - Slovenia

- heavy oil installation
- liquid gas installation
- azoth installation
- cyclopentane installation
- isobutane installation
- compressed air installation
- mounting of the boiler room

# Factory KRONOSPAN – Lapovo

wood refinement industry

- Thermotechnical-installations of heating
- Gas boilers
- Ventilation installation
- Air conditioning installation
- Compressed air

# DELTA PARK - Kragujevac

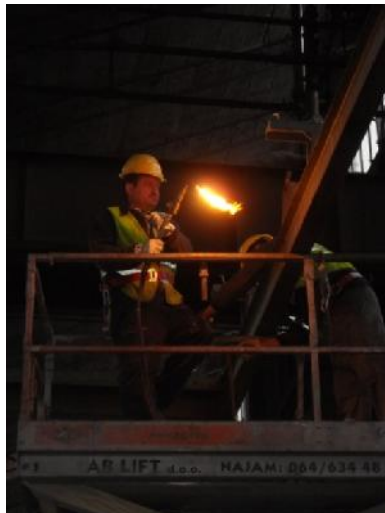

# FIAT Automobili Srbija

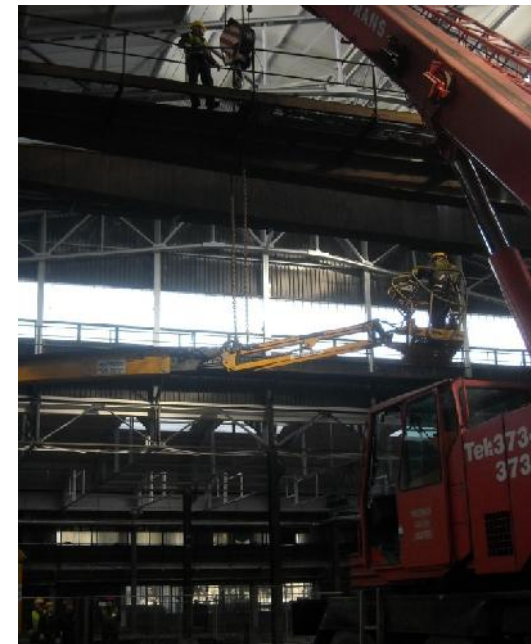

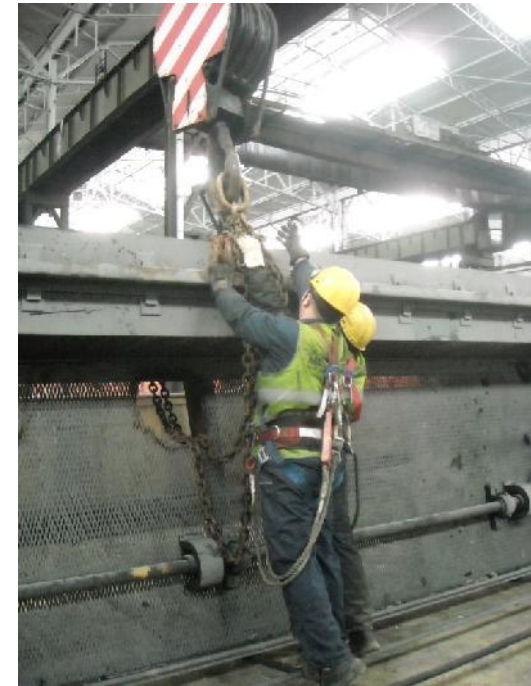

- Dismantling of HVAC installations in building 1, 2, 3, 4, 5, 6, 7 and 10
- Dismantling of electrical installations in building 2, 6, 7 and 10
- Dismantling of cooling station
- Dismantling of conveyor belts in basement of building 2 (press shop)

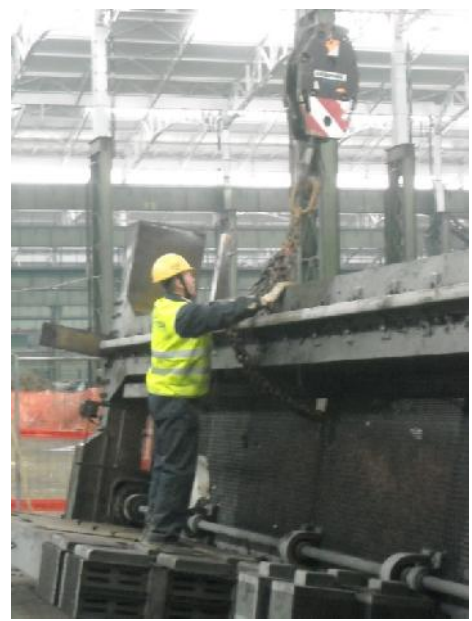

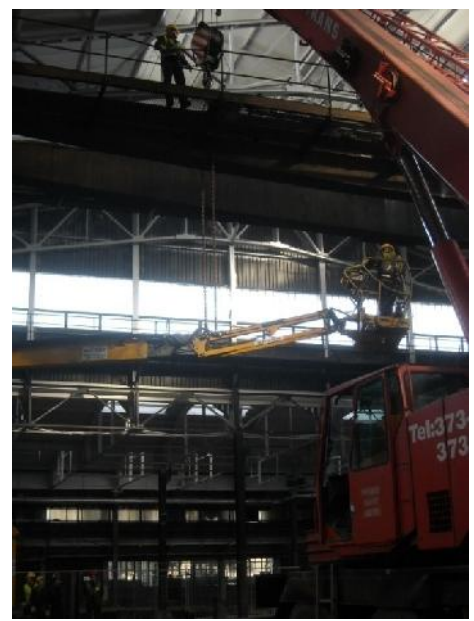

# Dismantling of steel construction

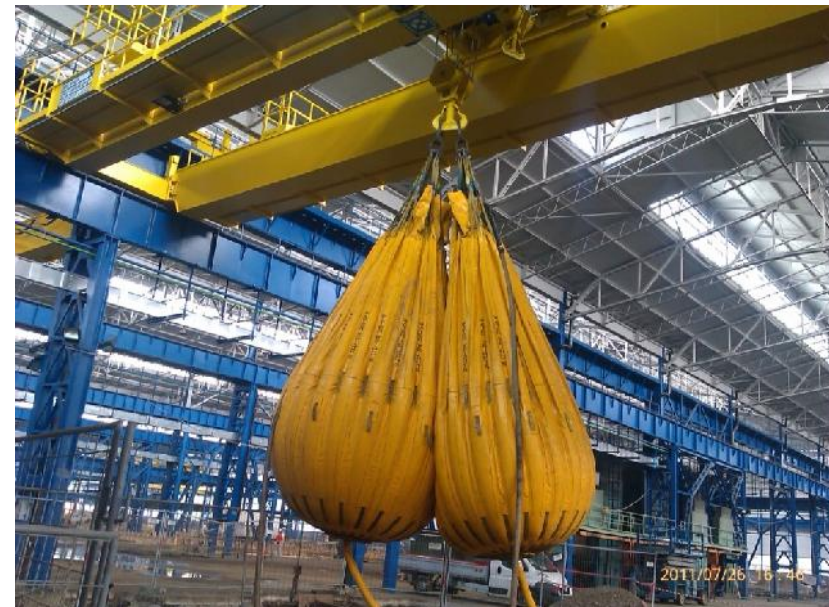

# Dismantling of crane total weight 46 t

## Installation of bridge cranes CERRATO – 8 pc.

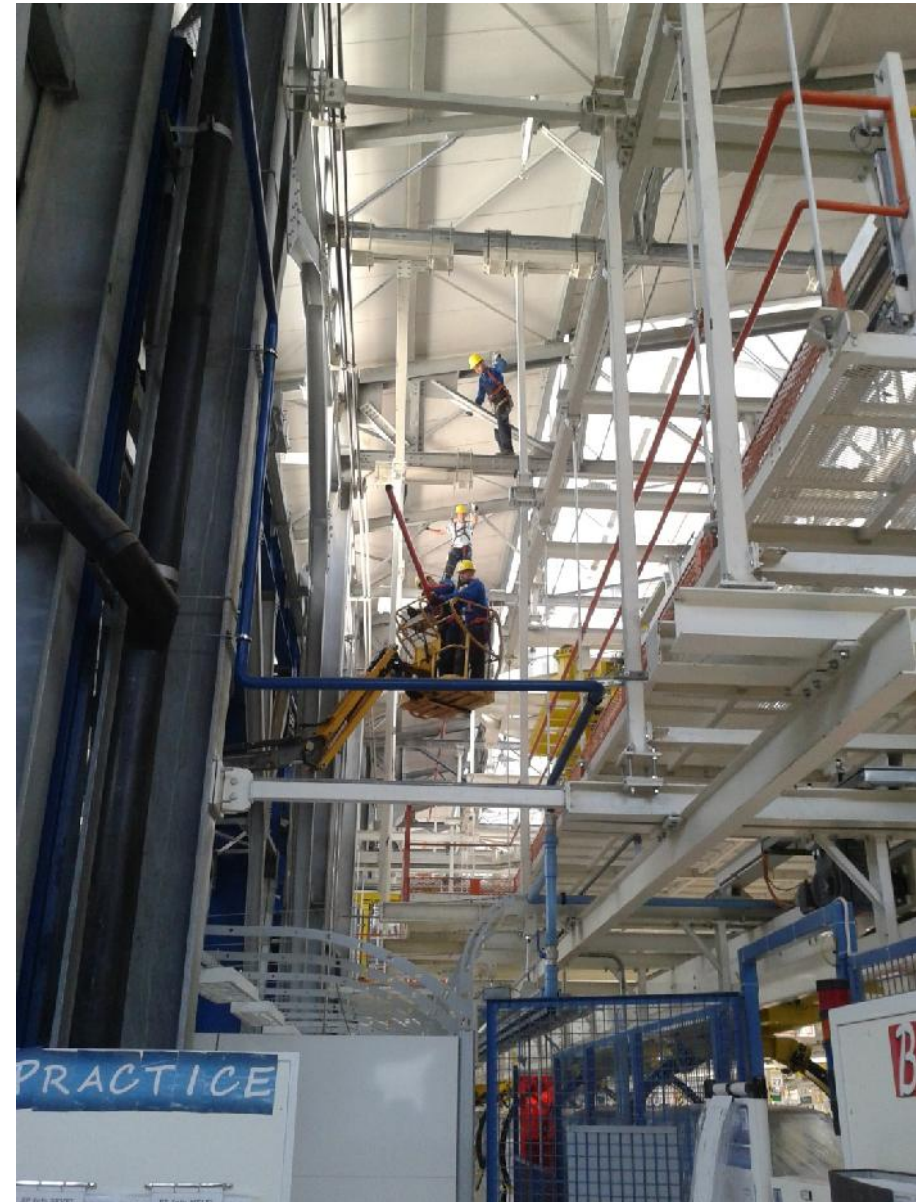

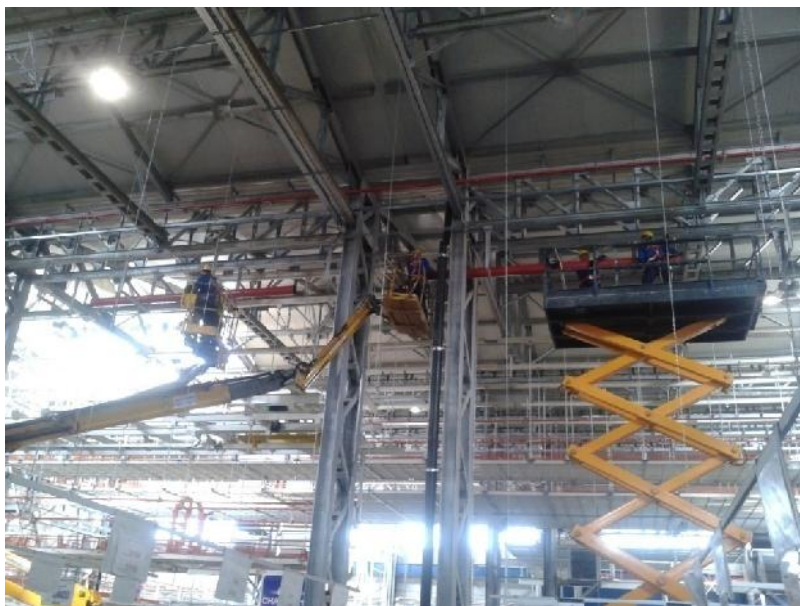

# CPM – FIAT Installing of steel construction, ventilation system and platforms

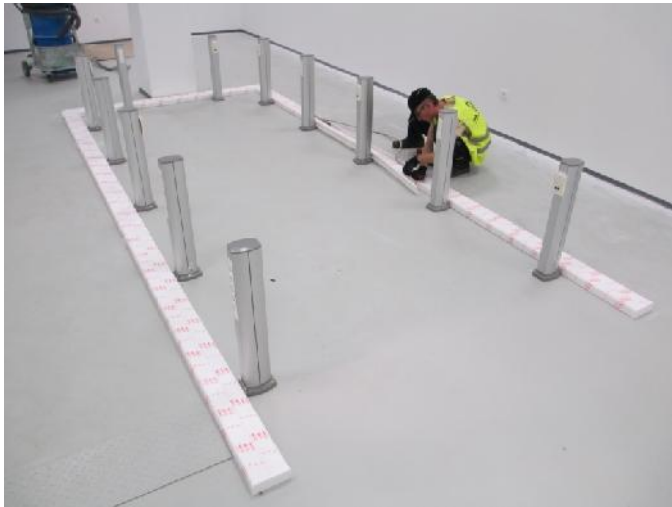

## Sprinkler system Building 5 (44000m<sup>2</sup>) – FIAT Automobili Srbija

# Various works in FCA

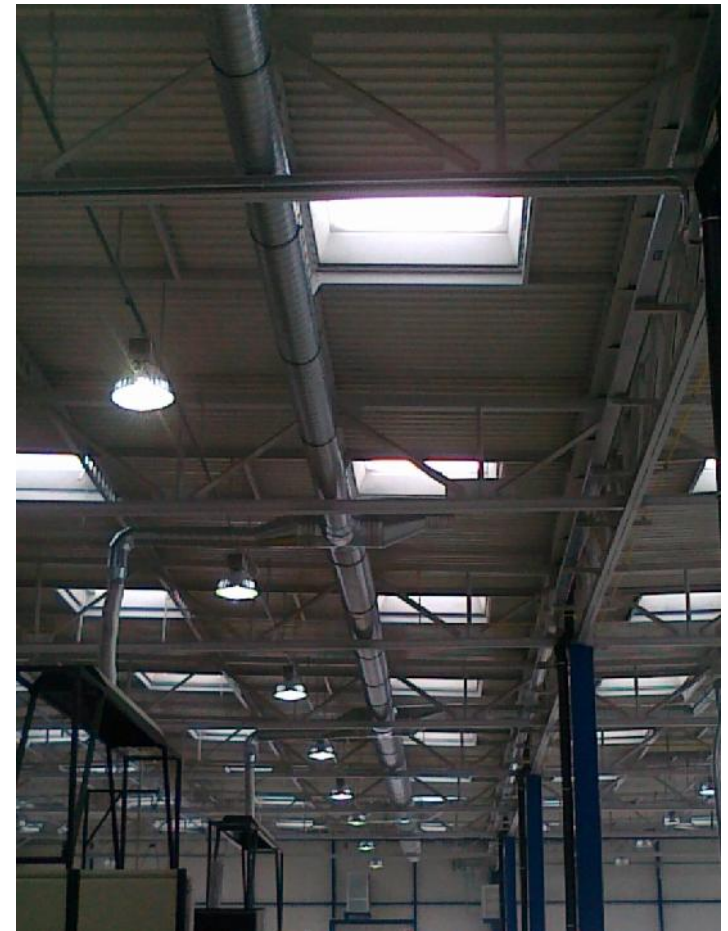

# FCA – Kragujevac

compressed air station

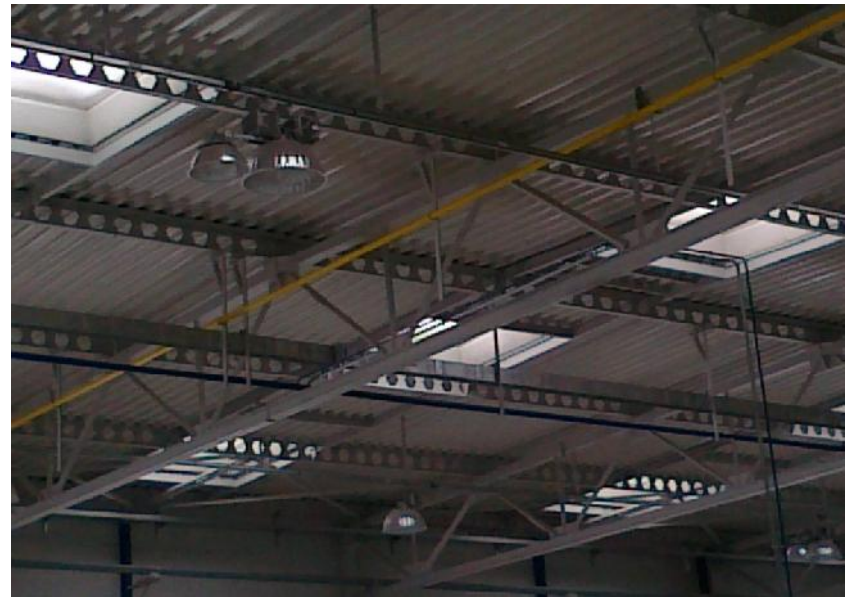

# MAGNETI MARELLI

## Mechanical installation

# Electrical installation

# PLANT ROOM

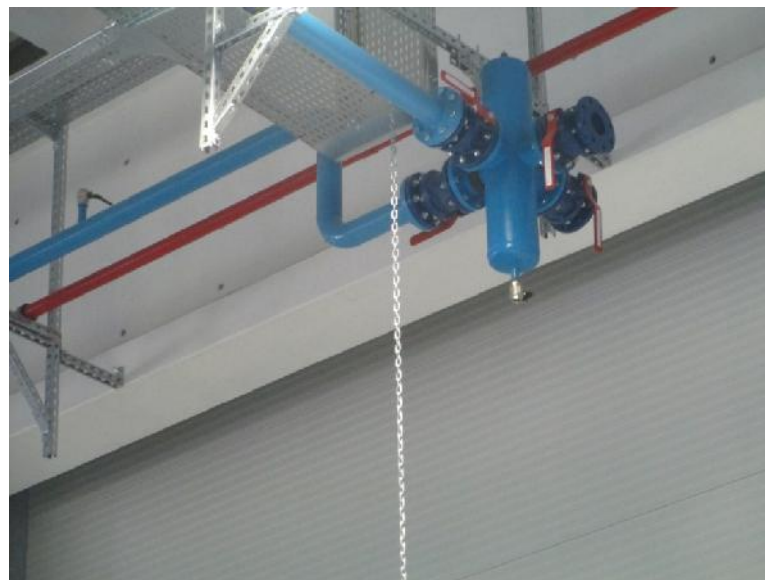

# VESCOVINI GROUP Italy - SBE Serbia – Šabac
